

KAMEHAMEHA SCHOOLS

October 11, 2005

To Whom It May Concern:

I am a high school health teacher at The Kamehameha Schools. Part of our curriculum deals with the subject of drugs use, misuse and abuse.

Our Narconon Speakers last week were very effective with our students as witnessed by reading their letters to both Bobbie Wiggins and T.J. Students expressed their ideas, feelings, personal commitments and goals via the letters. When I read through their letters, all students expressed only positive thoughts on how both helped them to never use drugs.

I think these two guest speakers won the respect and admiration of both students and my colleagues. Each day the curriculum involved valuable information on drug use.

Focus:

- Day One: physical usage.
- Day Two: media influences
- Day Three: mental/emotion influences
- Day Four: personal goal setting and barriers were covered.

What an awesome four days! I appreciated their time, energy and life experiences conveyed to our students. I admired the sensitivity displayed with our students. I also observed how quickly unexpected problems were handled and how appropriate decisions towards resolving them were received.

Thank you for the opportunity to service our students! You both made a significant impact on their lives.

Sincerely,

Ernie Brennon
Personal Health Teacher
