Honolulu, HI 96817

Dear Bobby, Bobby, and JT,

I am writing to thank you so much for being a part of our school, and participating in our Health curriculum this semester. The teachers found your presentations very informational and current. The students' responses were also very positive. We really felt that they spoke from the heart in the short essays that they wrote about your program.

I hope we can continue this next year, by having you return to the Health classes, as well as by doing presentations to different grade levels. Because it was so late in the year once we were in contact, it was very difficult to put in any other special programs at the end of a very busy school year.

You do a great service and the people of Hawaii will definitely benefit from you being here.

Again, thank you very much for coming to Mid-Pacific Institute.

Sincerely,

Julie Halpern  
Director of Student Services
